1. General

H&M has with concern for the health of customers as well as for the environment and working conditions, established H&M Chemical Restrictions for all products.

H&M Chemical Restrictions consists of the Manufacturing Restricted Substance List and the Restricted Substance Lists. The Restricted Substance Lists consists of 11 stand-alone parts which are divided on product type; Packaging, Apparel/Accessories/Footwear/Home Interior Textile Products, Cosmetic Products, Food Contact Products, Candles, Hardline, Chemical Products, Toys, Electrical and Electronic Products and Batteries, Medical Devices and Aerosol Dispensers.

Always follow all relevant latest parts of H&M Chemical Restrictions.

Each limit in H&M Chemical Restrictions is valid for homogeneous parts of the concerned product if not otherwise stated.

Relevant test methods are specified in each part of the H&M Chemical Restrictions. In case of undated test method, the latest version is valid.

Please note that a product might have to comply with more than one H&M Restricted Substance List. A cosmetic formulation in an aerosol container must comply with the requirements for Cosmetic Products, Aerosol Dispensers and Packaging. If a product is appealing to children it might also be considered a Toy and must comply with requirements for toys.

The official and valid version of this document is in English. Any translation of the document is prepared for reference only. H&M accepts no liability for any mistakes done in the translation.

2. Commitment

By accepting H&M Standard Purchase Conditions, the Supplier commits to comply with H&M Chemical Restrictions. It is the Supplier's responsibility to assure compliance with H&M Chemical Restrictions and to inform all their downstream suppliers and subcontractors about the content of H&M Chemical Restrictions.

By accepting H&M Standard Purchase Conditions, each Supplier acknowledges that H&M reserves the right to:

- *Inspect and test any product, any part of production and/or packaging, by any listed or appropriate method, at any time or at any stage of production.*
- *Cancel the Order, or, if the products are already delivered, return the products to the Supplier if the product, production and/or packaging do not correspond to the H&M Chemical Restrictions.*
- *Hold the Supplier responsible for any damage caused by the ordered product if the product, production and/or packaging do not correspond to the H&M Chemical Restrictions.*
- *Receive the Safety Data Sheets (SDS) for all substances and preparations (dyes, colorants, solvents, chemicals etc.) used in the production of a specific Order.*

In the case of contradictory test results, H&M test results will prevail.

3. Example

All details on your product must comply with H&M Chemical Restrictions, see example below. The examples do not claim to be complete.

4. Definitions

Aerosol dispensers

Non-refillable receptacles, made of metal, glass or plastics and containing a gas, compressed, liquefied or dissolved under pressure, with or without a liquid, paste or powder, and fitted with a release device allowing the contents to be ejected as solid or liquid particles in suspension in a gas, as a foam, paste or powder or in a liquid state or in a gaseous state.

5. Abbreviations

ADD	Aerosol Dispensers Directive 75/324/EEG
FMD	Full Material Declaration
CLP	EU Regulation 1272/2008 (CLP)

6. Requirements

Requirement	Limit/Requirement
ADD ¹	All aerosol dispensers must comply with Aerosol dispensers directive 75/324/EEG
Classification, labelling and packaging according to CLP Regulation ²	All Aerosol dispensers must comply with EU Regulation 1272/2008 (CLP) and amendments
Chemical product in aerosol dispenser	Chemical contents must comply with H&M Chemical Restrictions for Chemical Products
Cosmetic product in aerosol dispenser	Contents must comply with H&M Chemical Restrictions for Cosmetic Products
Montreal Protocol on substances that deplete the ozone layer ³	The propellant must comply with Montreal Protocol on substances that deplete the ozone layer
EU regulation on fluorinated greenhouse gases ⁴	Fluorinated greenhouse gases of Annex I of the regulation are prohibited

¹ Aerosol dispensers directive 75/324/EEG

² EU Regulation 1272/2008 (CLP)

³ REGULATION (EC) No 1005/2009 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 September 2009 on substances that deplete the ozone layer (recast)

⁴ REGULATION (EU) No 517/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 April 2014 on fluorinated greenhouse gases and repealing Regulation (EC) No 842/2006
