## TO WHOM IT MAY CONCERN

### **Croda Textile Auxiliaries intended for H&M**

Croda ingredients and technologies are relied on to deliver product performance by industries and consumers worldwide. We are the name behind the high performance ingredients in some of the most successful brands in the world. Our ongoing investment in technology gives us this position, which is supported by our Technology Investment Group (TIG) who is responsible for identifying and integrating exciting new technologies that offer solutions to future customer and market needs.

We believe in embracing our responsibility for sustainable growth and that being a responsible company means from the materials we use, to the ingredients we create and the way we manufacture and operate, we should make a positive contribution to people's lives and the world they live in. Our balanced sustainability approach considers environmental, social and economic impacts and our established long term sustainability strategy has tough performance targets to ensure we adapt and challenge ourselves to meet business needs today and in the future.

With strong beliefs and commitment to improve corporate social responsibility, we certify that the below listed chemicals manufactured by Croda Indonesia (Cikarang) and Croda India (Thane) are all compliant with the standard of H&M MRSL (H&M Global Chemical Restrictions version as of May 2016). The listed below chemicals are also qualify for pre-treatment, mercerization, dyeing, printing and finishing of textiles in compliance with the standard of H&M RSL (H&M Global Restrictions version as of January 2017).

Yours sincerely,

**Anu Chaphekar**  
*Lead Development Scientist*  
Croda India
