Declaration of Conformance

We confirm that below listed Jakazol and Jakofix dyes, listed in page no. 2 if applied to textiles as per the recommended standard application methods, then the resultant textile article will conform the requirement of restricted substances listed in:

H&M Chemical Restrictions Apparel/Accessories/Footwear/Home Interior Textile Products Global Product Compliance Department January 2017

We further declare that none of the chemical substances listed in **H&M Chemical Restrictions Manufacturing Restricted Substance List (MRSL) Dated May 2016** are intentionally used in manufacturing of below dyes.

The strict observation of our application recommendation is a pre-requisite for the validity of this declaration.

Application and fastness properties of the article are depending upon the factors other than the dyestuff and therefore the requirements of fastness properties are not covered under the purview of this declaration.

JAY Chemical Industries Ltd, hereby confirm, that the chemical substances named in road Map towards Zero Discharge of Hazardous chemicals (ZDHC MRSL 2015 Version 1.1) are not used, either as reagents or as components of functional formulation, in the manufacture of Jakazol Jakofix Brand of reactive dyes. We further confirm that none of these 11 priority chemicals listed in joint road map are used as intentional ingredients of our manufacturing process. All our products are qualified to support the joint Road map and Jay Chemical Industries Limited has committed support all the partners in the Textile supply chain towards ZDHC

For Jay Chemical Industries Limited

P. S. Kulkarni

General Manager (Product Development)
