**TEXTILE PRINTING INKS**  
POSITIVE LIST **NOVEMBER** 2016

**SILKFLEX**

## Declaration of Conformity

As the leading supplier of eco-friendly water-based textile screen printing inks, we are committed to the highest standards of product quality, consistency and environment preservation. We are fully aligned with the efforts of the 'Zero Discharge of Hazardous Chemicals (ZDHC) Joint Roadmap (version 2)' which provides clear guidelines on the elimination of hazardous substances potentially used and discharged into the environment during manufacturing and related processes, not just those which are present in the finished product. For further details, please communicate with our Silkflex offices worldwide (please refer to Appendix 1.1 & 1.2).

Pursuant to the inclusion of Silkflex inks into the 'Positive List for H&M 2016', we hereby confirm and warrant that the following list of products

- Conform to the 'H&M Chemical Restrictions-Manufacturing Restricted Substance List (MRSL) version 2.0 May 2016' and
- Qualify for 'H&M Chemical Restrictions- Restricted Substance List (RSL) Chemical Products-Global Compliance Department Jan.1, 2017'.

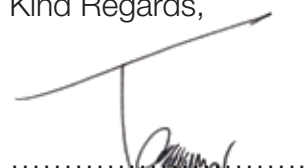

This declaration is provided in addition to the successful completion of the verification process which was conducted at site and in the presence of Bureau Veritas and the relevant H&M technical personnel.

Kind Regards,
